About Us

beyondlimitscanada.ca

Society often puts labels on people with disabilities, which in turn limits their ability to thrive. **Beyond Limits** brings people together to exchange ideas, expertise, and knowledge with a goal of enhancing the quality and accessibility of services for people with additional support needs.

We push **beyond the limits** of the possible into the impossible. It is here where we truly create a community of inclusivity, amplifying the voices of the people we serve.

With a focus on behaviour, research, technology, ethics, and best practices, **Beyond Limits** will leave you with practical tools, strategies, and information to allow professionals, para-professionals and decision makers to better support the people they serve. Beyond Limits hosts an annual in-person conference, with additional virtual and in-person offerings throughout the year as well. Sponsorship is available for all events taking place for Beyond Limits from September 2023 through June 2024.

2023 Conference Theme

Inclusion and Intersectionality

Our theme for the 2023 in-person Conference taking place on October 27th at the Victoria Inn and Suites is Inclusion and Intersectionality, with subthemes of education, employment, sports/recreation/leisure and artificial intelligence/technology. Our theme explores the ways that disability intersects with how people access and interact with their communities and inclusion in everyday life. Inclusion refers to ensuring that all people have access to opportunities and resources where they might otherwise be excluded or marginalized. Intersectionality is the acknowledgement that everyone has their own unique experiences of discrimination and oppression. We expect to have an audience of approximately 400 attendees.

2023 Beyond Limits & MABA Event

Technology and Disability

On November 30th, Beyond Limits and the Manitoba Association of Behaviour Analysis (MABA) are collaborating to host an in-person event taking place at the Victoria Inn and Suites. This event will offer a number of sessions outlining how technology can be used to improve the quality of life of people with disabilities. We expect to have an audience of approximately 100 attendees.
